Saving Lives Through Simulation Technology®

July 24, 2018

Oliver Boryszewski, CCEMT-P, NRP, EMT-P, LI
Lead EMS Instructor / ASLS Training Center Coordinator
Loyola University Medical Center, Emergency Medical Services
2160 S. First Ave., 110 Lower Level
Maywood, IL 60153

Congratulations! The Gordon Center for Research in Medical Education is pleased to welcome Loyola University Medical Center, Emergency Medical Services as a registered training center (TC) for Advanced Stroke Life Support® (ASLS®) for Hospital and Prehospital Providers. As such, Loyola University Medical Center is empowered to conduct classes in the 8-hour, simulation-based ASLS® provider course to a diverse audience of practitioners and students, of all healthcare professions, who may be called upon to treat patients that are at higher risk of or showing symptoms of a stroke.

So long as an ASLS® training center maintains compliance with the policies and procedures described in the [Advanced Stroke Life Support® Curriculum Guidelines for Use](#), there are no restrictions on where it holds classes, nor whom it teaches. A TC has the option of setting and collecting a fee from participants in provider classes it presents but must adhere to advance disclosure requirements described in the Guidelines for Use.

The designated TC Coordinator serves as primary contact and liaison with the Gordon Center regarding administration of ASLS® training and is given secured access to the ASLS® TC Resource Website, where tests, answer keys, evaluation forms, and other tools and information are downloadable. The TC Coordinator is also provided the means to securely convey to the Gordon Center the required class and learner data. To effect a change in the individual fulfilling the role of TC Coordinator, notify the Gordon Center via email to

More than 20 years of use and multiple studies have established ASLS® as the premier course for stroke education. The staff at the Gordon Center is available by email and phone to answer questions, provide guidance and otherwise support you and Loyola University Medical Center in implementing and sustaining a successful, effective ASLS® training program.
